VAN ALVA®

1) Creative Brief:

It's an absolute pleasure to embark on this exciting journey with Bohemia Group, assisting in the creation of your new online home. Your commitment to showcasing diverse media talents and your vibrant presence in the industry truly resonate. With Bohemia Group's illustrious history and dynamic portfolio, it's essential that we encapsulate this energy and professionalism on your new website.

Creating a website for Bohemia Group that reflects its dynamic role in the media industry, showcasing the agency's history, services, and achievements. The site will be interactive, modern, and functional, aimed at captivating visitors and enhancing the brand's digital presence.

Project Objectives:

Reflect Bohemia Group's Essence: Design a website that mirrors the creativity, diversity, and professionalism of Bohemia Group, offering visitors a glimpse into your world.

Interactive and Engaging Design: Implement dynamic elements to captivate and engage visitors, encouraging them to explore your array of services and success stories.

Content Management System: Develop a straightforward CMS for easy updates on projects, client achievements, and company news.

Social Media Integration: Seamlessly connect social media feeds to enhance marketing and community connectivity.

Booking Platform: Establish a versatile online platform like Calendly for service inquiries, bookings, and showcasing your talent.

Local Community Collaboration: Highlight partnerships and projects within the media community, promoting a network of creativity.

Optimization for Performance: Focus on fast load times, seamless user experience, and superior SEO to enhance visibility and accessibility.

Multilingual Support: Cater to an international clientele with multilingual options, starting with English for broad accessibility.

Steps to Follow:

Initial Design on Adobe XD: Conceptualize the website's look and feel, focusing on modern aesthetics and user engagement.

-Webflow Development: Transition to Webflow for a dynamic, responsive, and interactive site build.

Landing Page Creation: Start with a compelling landing page that embodies Bohemia Group's brand and vision.

- Interactive Features: Custom-design elements to make the website not just informative but a memorable experience for visitors.

- CMS Setup: Implement a user-friendly content management system for real-time updates.

Social Media and E-commerce Integration: Ensure seamless integration of social media and e-commerce functionalities for holistic digital interaction.

- Responsive Design: Guarantee that the site is fully responsive, providing an optimal viewing experience on various devices.

SEO and Performance Tuning: Optimize for search engines and enhance website performance for speed and efficiency.

- Multilingual Setup: Provide multilingual support to accommodate your global audience.

- Testing and Refinement: Conduct thorough testing to fine-tune the user experience and functionality.

- Launch: Officially launch the website, introducing Bohemia Group’s new digital presence to the world.

- Training and Support: Provide comprehensive training on managing the new website and offer ongoing

support to ensure continuous success.

- Homepage: Introduction to Bohemia Group with engaging visuals and clear CTAs.

-About Us: Detailed history, mission, values, team profiles, and client testimonials.

-Services: In-depth descriptions of services offered, with separate pages for categories and case studies.

-Portfolio: Showcase of past projects, campaigns, client logos, and testimonials.

-Blog/News: Regularly updated content on media industry trends and insights.

-Contact Us: Easy access to contact details with an inquiry form and location map.

-Client Resources: Downloadable ebooks, whitepapers, guides, and FAQs.

-Social Media Integration: Links to profiles and live social media feeds.

-Responsive Design: Optimized viewing and interaction across all devices.

-SEO Optimization: Strategic implementation of SEO elements for enhanced visibility.

-Accessibility: ADA compliant design with user-friendly navigation and alternative text.

-Security: SSL certification and routine security updates for data protection.

-Analytics and Tracking: Integration with analytics tools for performance monitoring and insights.

MY PROPOSAL: BEFORE WE START

The Opportunity for Rebranding:

As we embark on the exciting journey of Designing the entire website for Bohemia Group, it's the perfect opportunity to evaluate and reimagine your entire brand. This process is more than just delivering a product; it's an immersive and creative exercise that fosters deep collaboration between us.

A Journey of Brand Discovery for Bohemia Group:

In-Depth Collaboration: We'll dive into every detail of your brand, engaging in interactive sessions to discuss, brainstorm, and uncover the essence of Bohemia Group. This journey is about understanding the core of your company, ensuring that every aspect of the brand is a true reflection of your vision and values.

3) Proposal:

01//Shake Front UI/UX - Full Webflow Pack

Creation, assessment, and support during the design and development of Bohemia's website

Includes:

- Design, Development, and Implementation of **Up to 15* (HOME / PORTFOLIO / ABOUT / SERVICES / CONTACT / RESOURCES) + Needed pages such as (COMING SOON PAGE / FAQS / PRIVACY POLICY / TERMS AND CONDITIONS / BLOG/NEWS SECTION / ERROR 404 PAGE / SITEMAP)**
- Responsive UI/UX Design (XD Wireframe: desktop, tablet, mobile and horizontal view)
- Interactive Prototype: Interactive version of the wireframes that allows testing functionality and user experience.
- Sitemap.
- Creation of a Moodboard: Includes the color scheme, fonts, typography, images, and other visual elements before starting the design phase.
- Unique and Effective Calls to Action (CTA).
- Possible Creation of New Iconography: Or new resources needed to achieve the desired aesthetic.
- Design of Thumbnails, Section Headings: And other functional elements, effective CTAs.
- Pages in Webflow: Within the design capabilities established by the tool.
- Newsletter sign-up (Without Configuration)
- Custom Coding: To achieve advanced aesthetics and interactivity.
- CMS Config for full upload autonomy
- Pro CMS Filters by FNSWEET
- - Design of thumbnails, section headings, and other functional elements, effective CTAs.

- - 3+ animations and microinteractions (logo or complementary elements)
- Domain configuration and SSL Certificates set-up
- 100% Adaptive Design: To different dimensions, devices, browsers, and operating systems. (Tests conducted before publishing)
- Relevant Tests Before Publishing.

Price: **€10,700.00*** **(Webflow Pack** Up to 15 Pages**)**

*** -€700.00** *Discount for work referrals before finalizing the project*

02//One-Pager Full Feature - Webflow Dynamic Pack

Creation of a feature-rich, one-page website integrating all functionalities of a full multi-page site but condensed into a single, dynamic page. (I removed some functionalities and pages such as the Blog to reduce cost and match your budget as much as I could).

Includes:

- Design, Development, and Implementation of **Up to 6* Single Page Sections (HOME / PORTFOLIO / ABOUT / SERVICES / CONTACT / RESOURCES) + Essential pages such as (COMING SOON PAGE / PRIVACY POLICY / TERMS AND CONDITIONS / ERROR 404 PAGE / SITEMAP)**
- Responsive UI/UX Design (XD Wireframe: desktop, tablet, mobile and horizontal view)
- Interactive Prototype: Interactive version of the wireframes that allows testing functionality and user experience.
- Single page navigation through Nav Anchors.
- Creation of a Moodboard: Includes the color scheme, fonts, typography, images, and other visual elements before starting the design phase.

- Unique and Effective Calls to Action (CTA).
- Possible Creation of New Iconography: Or new resources needed to achieve the desired aesthetic.
- Design of Thumbnails, Section Headings: And other functional elements, effective CTAs.
- Pages in Webflow: Within the design capabilities established by the tool.
- Custom Coding: To achieve advanced aesthetics and interactivity.
- CMS Config for full upload autonomy
- Pro CMS Filters by FNSWEET
- Design of thumbnails, section headings, and other functional elements, effective CTAs.
- 3+ animations and microinteractions (logo or complementary elements)
- Domain configuration and SSL Certificates set-up
- 100% Adaptive Design: To different dimensions, devices, browsers, and operating systems. (Tests conducted before publishing)
- Relevant Tests Before Publishing.

Price: **€9,200.00*** **(Webflow Pack** Up to 6 single page sections**)**

*** -€520.00** Discount for work referrals before finalizing the project*

03//Simplified Full Feature - Webflow Compact Pack

Creation of a streamlined multi-page website, reducing the number of pages and simplifying functionalities to align with the essential needs of Bohemia Group without compromising on quality.

Includes:

- Design, Development, and Implementation of essential pages: **(HOME / ABOUT / SERVICES / CONTACT) + Essential pages such as (COMING SOON PAGE / PRIVACY POLICY / TERMS AND CONDITIONS / ERROR 404 PAGE / SITEMAP)**
- Responsive UI/UX Design (XD Wireframe: desktop, tablet, mobile, and horizontal view)
- Interactive Prototype: Simplified interactive version of the wireframes that allows testing core functionality and user experience.
- Reduced Sitemap: Focused on essential navigation between main sections such as Home, Portfolio, About, Services, and Contact.
- Creation of a Moodboard: Focusing on the color scheme, fonts, typography, images, and other visual elements essential before starting the design phase.
- Effective Calls to Action (CTA) tailored to core user interactions.
- Design of Thumbnails, Section Headings, and other functional elements, with effective CTAs tailored to a reduced content strategy.
- Custom Coding: To achieve advanced aesthetics and interactivity.
- 1 animation (logo or complementary elements)
- Integration of third-party services like Typeform for creating interactive and visually appealing forms.
- Behance Portfolio and Social Media profiles redirections.
- Domain configuration and SSL Certificates setup.

- 100% Adaptive Design: To different dimensions, devices, browsers, and operating systems. (Tests conducted before publishing)

Price: **€7,350.00*** **(Webflow Pack** Up to 6 single page sections**)**

*** -€380.00** Discount for work referrals before finalizing the project*

04//Basic Web Presence - Webflow Intro Pack

Creation of an ultra-simplified, visually appealing one-page website aimed at providing a digital presence with the most basic interactivity and design elements, ideal for startups or small projects needing an online contact point.

Includes:

- Design, Development, and Implementation of essential pages: **(HOME / ABOUT / CONTACT/ SERVICES) + Essential pages such as (/ PRIVACY POLICY / TERMS AND CONDITIONS / ERROR 404 PAGE / SITEMAP)**
- Responsive UI/UX Design focusing mainly on mobile-first approach.
- Non-interactive Wireframe: Basic layout to visualize the site structure.
- Single page navigation through Nav Anchors.
- Direct links to social media profiles instead of embedding feeds.
- Basic Contact Form integration using third-party services like Typeform.
- Design of simple yet effective CTAs.
- **No** custom Coding: To achieve advanced aesthetics and interactivity.
- **No** animations nor microinteractions (logo or complementary elements)

- Domain registration and SSL Certificate for fundamental security.
- 100% Adaptive Design: To different dimensions, devices, browsers, and operating systems. (Tests conducted before publishing)

Price: **€4,500.00*** **(Webflow Pack** Up to 4 single page sections**)**

*** -€200.00** Discount for work referrals before finalizing the project*

No matter the selected tier, you will recieve:

1. Local Functional Wireframe, Ready for Programming. 🖥️
2. All Brand and Content Assets Optimized and Exported: To folders with unique tags and different formats and dimensions (PNG, JPEG, SVG, and JSON files, among others). 🎉
3. Functional Website, Ready for Launch. 🚀 (Content modification 👌)
4. A Website Worthy of a Museum! 🖼️

*(+$150 for each additional page/entry that was not part of the initial Local XD proposal and that was included on the development process)

* It's important to note that all multimedia content, including photos, videos, and text, must be provided by the (Bohemia Group) team before starting the design process. Any unstructured text or image content will be replaced by AI-generated template text in order to understand the available spaces and layout the page more effectively.

E X T R A S:

05//Silky Edits

- Removal of Imperfections.
- Focus and Sharpness.
- Cropping and Resizing.
- Perspective Adjustments.
- Background Replacement
- AI Enhancement.

You will receive:

1. Photos Exported in JPG
2. Raw Photos (RAW) for Future Use
3. Your Personal Google Drive with All Resources

Price: **~~$00,00~~ NO COST** (When hiring any of the Shake Front packages or Flashyfeed package)

4) Timeline:

02//Shake Front *

- **2** Week for Design
- **1** Week for Dev of coming soon page
- **Up to 6** Weeks for Development
- Estimated delivery `Jun 10, 2024`

01//Milky Branding 2-3 Weeks

* Rounds of design revisions may extend the project timeline by days or weeks, depending on the complexity of the changes requested.

5) Contract:

Info:

Client / Organization / Representative:

Name: _____

Last Name: _____

Company Name: _____

Project Name:

[Bohemia Group - Shake Front Web Design X Van Alva]

Date: _____

Name of the responsible designer:

[Juan Carlos Vannini Alvarez]

This contract will be formalized on the day of signing between the Client and the Designer indicated above.

This contract includes (1) or more of the following products to select:

01//Shake Front - 1 of 4 Webflow Packs	**x1**
05//Silky Edits	**X1**

Confidentiality:

As the Designer, I hereby confirm that I may come to know or have access to personal information relating to the client. This includes past, present, and future client names, marketing plans, project information, and financial documents of the client.

I agree to protect all the aforementioned information and maintain the confidentiality of any information obtained.

However, I will be allowed to display the final work on my website, social media, portfolio, and in promotional materials.

Client Approval:

The Client will be notified of each material, which must be approved before the completion and delivery of the project.

Additionally, the Client will have the right to accept the work and request any revisions if necessary.

The client has the right to request partial intervention by the provider in the implementation of the website, including any necessary redesign, as long as these changes are necessary due to limitations of the tool or to optimize images and content. I commit to making these changes within a reasonable timeframe and without additional fees. Any additional work requiring significant effort from the provider will be considered as extra work and will be billed separately.

Termination:

Termination Clause for Branding Services:

- Early Termination by the Client (Within the First Two Weeks): If the Client decides to cancel the project within the first two weeks and before the first design delivery, they will be responsible for paying 25% of the total project cost. Since the Client has already paid 50% initially, I will refund the remaining 25% to the Client.
- Cancellation After the First Delivery: If cancellation occurs after the first design delivery but before the standard three revisions, no additional refunds or payments are required from the Client, as the initial 50% is considered to cover the work done up to that point.
- Cancellation After Three Revisions: In case of cancellation after three revisions and before the final design approval, the Client must pay 75% of the total project cost.
- Delivery of Editables and Brandbook: Once the final design is approved, the Client must pay the remaining balance before I deliver the editable files and the brand manual.

Termination Clause for Web Design and Development:

- Early Termination by the Client (Within the First Two Weeks): In case of cancellation within the first two weeks and before the web design delivery, the Client will be responsible for paying 25% of the total project cost. I will refund the remaining 25% of the initial 50% payment.
- Cancellation After Design Delivery: If the Client cancels the project after the website design delivery but before starting development, they will be responsible for paying 75% of the total project cost.
- Cancellation After Starting Development: If the Client cancels the project after approving the final design and when development

has started or is about to start, they will be responsible for paying 100% of the total project cost.

Termination by the Designer:

- Justified Emergency Cancellation: I can only cancel the contract under extremely justified emergency circumstances, such as severe health issues, natural disasters, or force majeure situations.
- Unjustified Cancellation: If I cancel the project for frivolous or unjustified reasons, the Client will receive a full refund of the amount already paid plus a 25% discount coupon for future work.
- Notification and Justification: I must provide written notification to the Client explaining the reasons for the cancellation.
- Client Compensation in Case of Justified Emergency: If the cancellation is due to a justified emergency, the Client will receive the amount paid minus 15% of the total project cost, covering initial expenses and time invested up to the point of cancellation.
- Post-Cancellation Assistance: I will provide assistance in transitioning the project to another professional if requested by the Client.

Web Development in Webflow:

- Project Scope: I commit to developing the website according to the specifications previously agreed upon between the Client and myself. These specifications include, but are not limited to, the number of pages, functionalities, integrations, and any other relevant detail.
- Platform and Tools: I will use the Webflow platform for website development. It is the Client's responsibility to provide or cover the costs associated with any license, premium template, or specific integration that is not included in the standard Webflow subscription.

- Responsiveness: The website will be designed to be responsive, ensuring optimal viewing and functionality across various devices and screen sizes, including desktop computers, tablets, and smartphones.
- Third-Party Integrations: Any integration with third-party tools or platforms requested by the Client (e.g., booking systems, payment gateways) may incur additional costs and require extra time for implementation.
- Maintenance and Updates: Once the website is complete and delivered, any subsequent updates or modifications will require a new agreement and possibly additional costs, unless agreed otherwise.
- Training: I will provide a basic training session for the Client on how to manage and make minor updates to the site in Webflow. Additional sessions may incur extra costs.
- Handover: Upon project completion, I can transfer the ownership and full control of the website to the Client if required, subject to an agreement. This may require the Client to have their own account in Webflow.
- Limitations of Webflow: The Client acknowledges that the Webflow platform has its own limitations. Although it is a versatile and powerful platform, there may be certain functionalities or integrations that are not possible or that require alternative solutions.
- Backups: Backups will be performed regularly during development. However, once the project is delivered, it is the Client's responsibility to maintain and manage backups, unless a maintenance service is agreed upon.
- Confidentiality of Access: I guarantee that I will maintain the confidentiality of the access and credentials provided by the Client and will only use them for the purpose of developing the website.
- Limitation of Liability: I will not be responsible for any issues or technical failures on the website caused by updates on the Webflow platform, third-party integrations, or any other external factor post-delivery.

Web Domain:

- Ownership: If the Client already owns a domain, it is the Client's responsibility to provide the necessary access to link the domain with the Webflow site. If registering a new domain is needed, the associated costs for purchase and renewal will be borne by the Client, unless agreed otherwise.
- Linking: I will assist the Client in linking the domain to the Webflow site. However, it is the Client's responsibility to ensure that the domain is kept renewed and active.
- Transfers: If at any point the Client wishes to transfer their domain to another provider or registrar, it is the Client's responsibility to manage such a transfer. I can provide assistance or advice, but it may incur additional costs.
- Data Protection: If the service includes purchasing a domain on behalf of the Client, I commit to protecting the Client's personal information and not using the domain inappropriately or without the Client's consent.

6) Payment:

The Project will be carried out and delivered after payment of the amounts indicated under "Total Investment" depending on the selected package, distributed as follows:

All charges will be invoiced after the deliverables are sent to the Client and will be due according to the payment terms:

The client will make a deposit of:

60% at the start of the work, **10%** at the end of the Branding process, **30%** at the end of the project. (**70%** upfront if only the website is hired)

If the scope of work changes during the project, additional costs may occur. I will send any price changes to the Client before beginning such tasks.
