1) Brief:

Project Overview: Empower Solar is seeking to create a series of 7-8 motion infographics animations for a video campaign that highlights their commitment to a greener future. The videos will educate the public on the benefits of solar energy and showcase Empower Solar's expertise in providing high-performance solar power and battery systems for residential and commercial clients.

Target Audience: The target audience for this project includes homeowners and businesses in the Long Island and greater NYC area who are interested in transitioning to clean, renewable energy solutions.

Objective: The primary objective is to raise awareness about the advantages of solar energy and position Empower Solar as a leader in the industry. The videos will showcase Empower Solar's dedication to delivering high-quality work while adhering to their core values and promoting their mission and vision.

Tone and Style: The tone of the motion infographics should be informative, engaging, and inspiring, while the visual style should reflect the clean, modern, and eco-friendly nature of solar energy. The animations should be visually appealing and easily digestible, helping viewers understand the importance of transitioning to renewable energy and the role of Empower Solar in making this possible.

Concept Development: Collaborate with Empower Solar to develop compelling concepts for the nine motion infographics animations.
